

## Quick Guide

The screenshot shows the SimuCase interface. At the top right, there is a '3 SAVE/EXIT' button. Below it is a navigation bar with icons and labels for 'CASE HISTORY', 'COLLABORATORS', 'ASSESSMENTS', 'DIAGNOSIS', and 'RECOMMENDATIONS'. A 'SUBMIT CASE' button is also present. The main workspace contains a large text area with a play button icon and the following text: 'It is a pleasure to introduce you to Kara Lynn. To begin, please select a tool from the menu above. If you need help please click the "help" link available in the purple bar for each tool.' To the right of the text is a video player showing the virtual client Kara Lynn. At the bottom, a 'Clipboard' sidebar is visible, listing various tools: Referral Information, General Information, Clinical Hypothesis, Case History, Collaborators, Assessments, Diagnosis, and Recommendations. The number '1' is placed on the left side of the navigation bar, and the number '4' is placed on the right side of the 'SUBMIT CASE' button. The number '2' is placed on the left side of the 'Clipboard' sidebar.

### Assess your virtual client using these tools:

1. Work through the **assessment process** in the core areas, in any order. But we recommend starting here:
  - a. **Case History** – interact with the virtual client or caregiver by selecting appropriate questions or asking your own
  - b. **Collaborators** – consult other professionals and family members, ask novel questions and review reports
  - c. **Assessments** – administer age-appropriate standardized and non-standardized tests and procedures
  - d. **Diagnosis** – select your diagnoses
  - e. **Recommendations** – write client specific recommendations

**You are scored based on the appropriateness of your decisions.**

2. The **clipboard** saves all of your decisions for review.
3. **Save/Exit** your case to resume at a later time.
4. **Submit** your case upon completion and print your final report.
